**COMPANY  
PROFILE**

# MULTI LEVEL Consulting

MULTI LEVEL Consulting is a young and enterprising **multilevel-logistic consultancy company** founded in 2011 by **Dario Favaretto** to meet the ever more pressing requests of an **unconventionally evolving market**.

It started as a sole proprietorship, but new internal collaborations and new partnerships today boast of an international character.

Our expertise allows us to **help companies and their directors in the management and optimization of the various areas of logistics and of an enterprise** in general, and so is that over time we have gone to a level of «**Logistics 4.0**», with a marked **innovative and customized approach**.

An effective group of professionals with different backgrounds, but at the same time integrated, collaborates constantly with our company, aiming to the **highest customer satisfaction**.

**PROVEN LEARNING  
AND FACILITATION  
METHODOLOGIES  
FOR EVERY BUSINESS LEVEL**

**LEGO® Serious Play®**

**Soccer Experience™**

**CONSULTING**

**TRAINING**

**MANAGEMENT**

# LEGO® Serious Play®

**LEGO® Serious Play®** consists in a **facilitation methodology** that is born from the encounter of **Learning Sciences** with the well-known **LEGO bricks**, as well as the willingness to learn by playing!

**When we build with our hands, we think with our hands**, and a simple object becomes a metaphoric support to the development of decision-making processes. This modus is founded on **psychopedagogy** and Mr. Piaget's concepts of **constructionism** and **constructivism**, later elaborated by the **IMD Business School of Losanna** in collaboration with the **R&D Department of LEGO Education**.

Since **2018** we are **Certified Facilitator of LEGO® Serious Play®** method and materials and we use this practice in our consulting and management activities.

# SOCCER EXPERIENCE™

**Soccer Experience™** is a methodology conceived and developed by **Dario Favaretto**, its Founder and Trainer, who aims at dealing with business dynamics as a parallelism to soccer and to sports in general, as well as viceversa.

It is born from his experience in the non-professional soccer, always guided by a **great deal of attention to its communicative and neuroscientific aspects, with a common factor as team working.**

**Soccer Experience™** is an integral part of our consulting and management activities because, as in the soccer world, **we believe that there are no won or lost matches from the start, whereas an objective and a team that is motivated to achieve it.**

**RESPONSIBILITY  
FOR THE ACHIEVEMENT OF  
THE ESTIMATED RESULTS**

**REINFORCEMENT AND  
SUPPORT OF  
THE WORKING TEAM**

**CONSULTING**

**TRAINING**

**MANAGEMENT**

**DENTISTRY AND IMPLANTOLOGY**

**LOGISTICS AND TRANSPORTS**

# MULTI LEVEL Consulting works in partnership with

**WHY A  
CONSULTING?**

**WHY INVESTING  
IN YOURSELF  
AND  
IN YOUR OWN  
BUSINESS?**

**WHY  
CHOOSING  
TO GROW UP?**

It is not simple to give answers to the previous questions, and it is even more difficult the process leading the rise of these ones.

**The ability to develop a long-term vision and to look beyond the operational management of own life and business is an act of awareness that arises from a conscience.**

**The role of a consulting is not that of criticizing a company and being the bearer of the «absolute truths», whereas is that of helping the entrepreneur to observe reality with different and «external» eyes, without being captive to his creature.**

**The true strength does not come from the lack of doubts, whereas from asking the right questions, which cause intense reflection and a state of confusion.**

*«The true strength does not come from the lack of doubts, whereas from asking the right questions»*

**A question** that sums up the ability to observe the business issues as a whole, with a **completely different and new perspective, with no emotional and professional ties.**

The **consultant** sees a new reality and makes **people think in a different way**, entrepreneurs and executives too.

Whether it is personal or business issues, **a little change at the way you look at reality it is enough** to make it take a different shape.

This is the goal of a business consultant: **to observe criticalities from new perspectives and to guide his client to the shortest and safest «way out».**

And the word «shortest» is of great importance as today, in a dynamic and globalized context, **the speed of action is fundamental.**

*«...in a dynamic and globalized context,  
the speed of action is fundamental»*

**COMMITMENT**

**CONSULTING**

**METHOD**

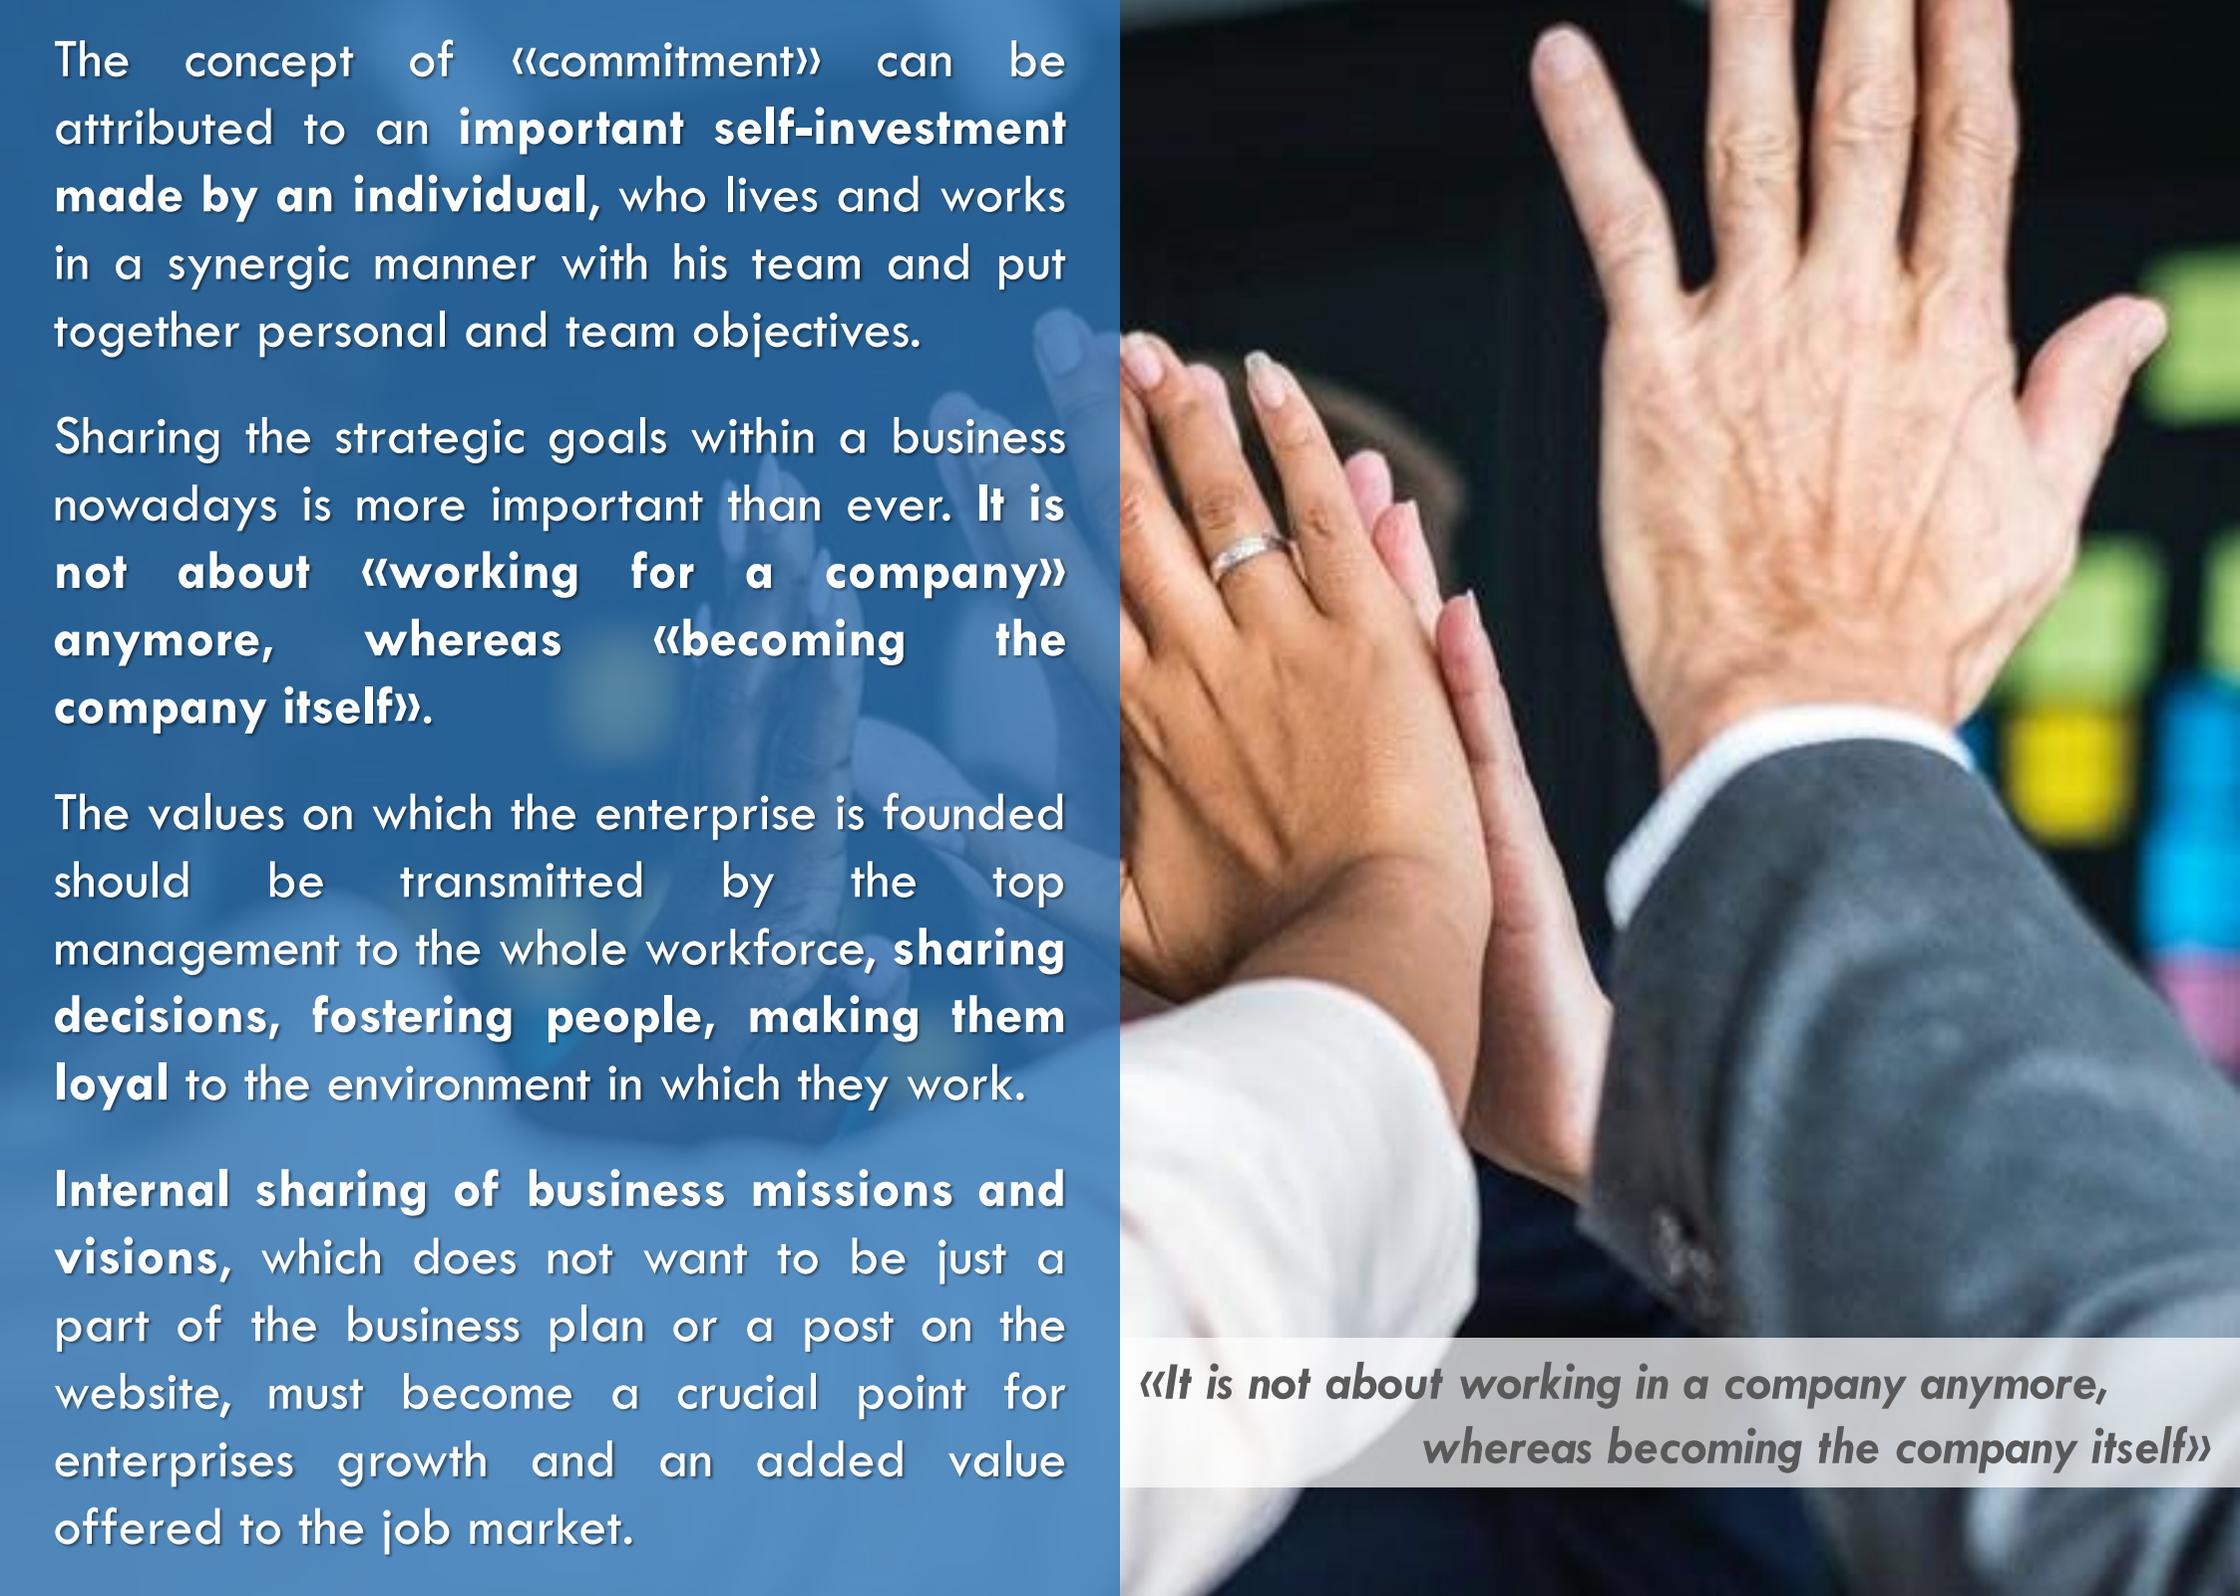

The concept of «commitment» can be attributed to an **important self-investment made by an individual**, who lives and works in a synergic manner with his team and put together personal and team objectives.

Sharing the strategic goals within a business nowadays is more important than ever. **It is not about «working for a company» anymore, whereas «becoming the company itself».**

The values on which the enterprise is founded should be transmitted by the top management to the whole workforce, **sharing decisions, fostering people, making them loyal** to the environment in which they work.

**Internal sharing of business missions and visions**, which does not want to be just a part of the business plan or a post on the website, must become a crucial point for enterprises growth and an added value offered to the job market.

*«It is not about working in a company anymore, whereas becoming the company itself»*

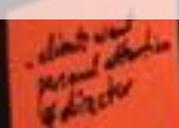

**Sharing and respecting goals, sense of belonging.** This is what «commitment» means to us.

Well structured business policies that encourage workers to «**be the company**» through efficient **internal communication, involvement** in critical **decisions, empowerment** of figures.

The consultant must be a «super partes entity» that **understands and lets the company understand too its identity, skills and know how**, which also identifies the **criticalities and gaps**, helping to fix them.

*«Sharing and respecting goals, sense of belonging.  
This is what commitment means to us»*
